Tax Transparency Report  
for Financial Year 2022-23

### Disclaimer

This voluntary report has been prepared by APL considering best practices and to the best of our knowledge. This report is for information purposes only.

This report might contain statements that are forward looking in nature. All statements other than statements of historical fact could be deemed as forward-looking in nature. Such statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. By accessing or relying on this report, you acknowledge that you will

be solely responsible for your own assessment of the market and our market position and that you will conduct your own analysis and be solely responsible for forming your own view of the potential future performance of our business.

### No duty to update

APL assumes no obligation to update any information or forward-looking statement contained herein, save for any information we are required to disclose by law.

### Our reporting ecosystem

We pay special attention to transparency and making content easy to find. This report is part of a broader reporting ecosystem which covers other topics relevant to Adani Portfolio companies. The publications include among others Annual Report 2022-23.

All content published is copyright of APL and shall not be reproduced without the prior written permission of the Company.

## Contents

### Part 1: Overview

- 6 Tax and how its perception has evolved
- 7 Tax and transparency
- 8 Tax transparency and governance
- 10 The tax universe

### Part 2: Perspective

- 14 Managing Director's perspective

### Part 3: The Adani Portfolio

- 18 About Adani Portfolio
- 24 Environmental, Social & Governance initiatives

### Part 4: Our approach to tax

- 27 Introduction
- 27 Approach to tax

### Part 5: The numbers

- 36 Our contribution to the exchequer; Tax and other contributions
- 38 Tax and other contributions
- 39 The basis of preparation
- 41 Independent reasonable assurance report
- 43 List of tax and other contributions covered
- 44 List of entities covered

The first word

# The Adani Portfolio Tax Transparency Report: An introduction

This is our maiden Tax Transparency Report.

This is a voluntary extra-statutory initiative.

This exercise has been undertaken to enhance stakeholder transparency.

This forward-looking initiative comprises a holistic review of how we appraise the subject of tax management, our long-term policies, how we compute, what we pay and when we pay.

We believe that this document will reinforce what we believe: **'Growth with Goodness.'**

Our commitment

# Adani's commitment to 'Growth with goodness'

At the Adani Group, our directional objective has been best summed up in three words.

**'Growth with goodness.'**

This statement has reinforced a strategic clarity.

That anyone – company or individual – touched by our business must grow.

That our desired direction must result in positive outcomes.

The combination of growth and goodness represents not just a statement of purpose but also a platform for business sustainability.

This commitment explains our engagement with the government; tax payment represents our contribution to the government that makes it possible, in turn, for the government to provide society at large with an enabling environment that makes it possible for the country to sustain its growth momentum.

Part 1

# Overview

# Tax and how its perception has evolved

## Overview

There has been a fundamental transformation in the way tax is perceived.

Conventionally, tax was seen as a cost for staying in business and a license to operate.

There has been a significant transformation since.

Tax transparency was a relatively unmapped subject until a couple of years ago; today, it is being increasingly accepted as a welcome and voluntary initiative communicating private contributions to public finances.

Tax is being increasingly perceived as a responsible obligation on the part of a payer that makes it possible for the government to provide society with an enabling platform.

There is another transformation that has transpired.

Rather than treat tax as a below-the-radar financial entry, a new

generation of corporate thinkers are placing tax at the centre of the governance circle.

There is a growing recognition that tax is not just an expense entry in the books of the payer; it is a valuable contribution that empowers governments to provide citizens with a range of facilities and benefits.

The result is that tax is now being widely accepted as a social lubricant; companies that pay sizable tax are celebrated as decisive contributors to economic progress.

As an extension of this reality, a secondary transformation is becoming evident: a growing shift in focus from the 'what' to the 'how'.

There is an increasing emphasis not merely on a consolidated statement of the tax paid by a company but also the need for transparent explanations: the policies related to tax management, quantum of various taxes, process of tax computation, compliance discipline

that made timely payment a reality, the operating structure that made timely compliance possible and periodic checks (audits) covering the discipline.

Given the importance of this subject, there has been a growing recognition that the subject of tax responsibility resides at the core of governance.

This importance has necessitated a separate document called the Tax Transparency Report.

## The tax process discipline

# Tax and transparency

## Overview

The global tax environment has entered a new age.

Even as the Tax Transparency Report is not mandatory, forward-looking companies report this for wider stakeholder attention. Besides, there is a growing stakeholder need for tax information from large and multinational companies, creating the basis for maximum standards of tax transparency.

The subject has graduated from being a black box into one that forward-looking companies communicate publicly. In turn, this is emerging as one of the levers of long-term value creation for the wider stakeholder community.

There are good reasons for this change.

**One**, there has been a growing movement towards complete corporate transparency; it has become increasingly imperative for the subject of tax to be treated as

transparently as some of the other drivers of corporate working.

**Two**, the treatment of tax is influenced by various interpretations of tax laws and provisions, making it imperative to state what interpretation was used to arrive at tax computation.

**Three**, external stakeholders now need an understanding of the quantum of tax payments made, leading to informed investing decisions.

**Four**, stakeholders also need to know the nature of tax jurisdictions of the Company's presence and the number of tax concession years available, deepening an insight into prospective cash flows and reinvestments.

**Five**, there is a growing correlation between the quantum of tax paid by companies and their valuations, making transparency integral to stakeholder perception and valuation.

**Six**, fair and sizable taxpayers are seen as builders of a modern society, strengthening their stakeholder recruitment and retention, leading to enhanced business sustainability.

**Seven**, companies receive taxes (on behalf of the government) related to the transaction that are then paid out to the government in addition to paying taxes on the profit generated by them, making it imperative to distinguish between the two for an informed understanding.

**Eight**, there is need for a consolidated picture on a company's holistic contribution (statutory taxes and levies) towards economic development and sustainability through tax payments.

## Tax: Enhanced transparency

# Tax transparency and governance

## Overview

There is a growing conviction that the treatment of tax is not at the periphery of a company's governance commitment, but integral to it.

At the Adani portfolio, tax and related payments represent the character of what we are (and hence influence what we do).

Our perspective has been influenced by the following understandings.

**One**, the biggest stakeholder in our business is the government; it provides all the platforms and freedoms that make it possible for us to stay and grow in business.

**Two**, the transparency related to tax payments (often complex) represents one of the most significant levers of corporate intent and pedigree.

**Three**, we believe that our contribution to the exchequer makes it possible for the government to reinvest in enabling infrastructure, which accelerates the virtuous national cycle.

**Four**, this voluntary exercise is a manifestation of what we believe: enhanced disclosures can be transformed into a deeper stakeholder understanding and competitive advantage.

The Adani portfolio's governance commitment ensures that tax affairs are managed ethically and methodically, leading to stakeholder assurance.

The Adani tax teams engage with the business teams to understand the operating models of transactions. Tax decisions are initiated by competent tax professionals in collaboration with experienced business colleagues and senior management. To replicate progressive practices, the Group facilitates an exchange of best practices among Adani Group constituents.

The Adani portfolio's standard operating procedures and policies guide compliance. Besides, financial controls embedded in processes are periodically re-assessed.

## Responsible tax principles

**Transparency:** We provide complete information to all our stakeholders about our tax approach and payments.

**Accountability and governance:** The contribution to exchequer represents an extension of our corporate responsibility and is overseen by our Board of Directors.

**Compliance:** We comply with the tax legislation of the regions of our presence, paying the right amount of tax at the right time and at the right place.

**Supporting the tax eco-system:** We engage in dialogues with governments, advocacy groups and civil society to help formulate tax systems, legislation and administration.

**Structures:** We use structures guided by commercial considerations and aligned with business activities (as opposed to abusive tax outcomes).

**Tax incentives:** The tax incentives claimed are transparent and consistent with statutory or regulatory frameworks.

**Relationships:** We develop co-operative relationships with tax authorities and other stakeholders based on trust.

Clarity

# The tax universe

At the Adani portfolio, we are an intermediate collector of tax on behalf of the government that is then paid, as well as being a payer of tax in our own right.

This dual role puts a premium on the capacity to transparently report collections, disbursements and payments.

## The corporate tax range we cover

### Direct contribution

- Corporate tax on income
- Indirect tax borne
- Other charges

### Indirect contribution

- Withholding tax
- Indirect tax
- Other taxes

### Other contributions

- Social security

Part 2

# Perspective

# Managing Director's perspective

## Overview

I am pleased to present to you Adani Power Limited's (APL) first ever Tax Transparency Report ('TTR') for FY 2022-23, which has been a watershed year of financial rejuvenation for the Company.

While tax transparency reporting is not yet mandatory in India, we have addressed this exercise voluntarily. This endorses our commitment to transparency and proactive communication. Besides, it reflects our ceaseless endeavor to live the Adani Group values of trust, courage and commitment. I am proud to communicate that our Company has continued to uphold the highest standards of tax transparency. Our commitment to compliance and ethical financial practices remained consistent and intrinsic to our culture during the last fiscal year.

We recognise the importance of contributing to the society in which we operate. Through our diligent tax practices, we have ensured that our contributions to the economy are not only compliant with regulations but also reflect our dedication to responsible corporate citizenship.

APL has diligently adhered to all tax laws and regulations applicable to it, ensuring that its financial practices align with both the letter and the spirit of the law. We have maintained accurate and comprehensive records, enabling us to fulfil our tax obligations while facilitating transparency and accountability. Moreover, we have actively engaged in initiatives to support the development of sustainable practices.

A summary of the contributions made by us to the Indian exchequer through taxes and other charges is presented in this report.

**53,397**

₹ Mn, APL's Tax contribution in FY 2022-23

We will continue to build an organisation that thrives on transparency and accountability along its journey to partner in nation building

We remain dedicated to not only maintain high tax transparency standards but also to society through various initiatives.

I extend my deepest gratitude to our shareholders, employees, and other stakeholders for their unwavering support as we navigate the complex landscape of the energy sector. Together, we will continue to build an organisation that thrives on transparency and accountability along its journey to partner in nation building.

Anil Sardana

Part 3

# The Adani Portfolio

# About Adani Portfolio

The multi-business Adani portfolio is one of the most dynamic infrastructure and utilities platforms in India.

The robustness of the Adani platform draws extensively from its ethical foundation

## Vision

To be a world-class leader in businesses that enrich lives and contribute to nations in building infrastructure through sustainable value creation.

## Values

### Courage

We shall embrace new ideas and businesses

### Trust

We shall believe in our employees and other stakeholders

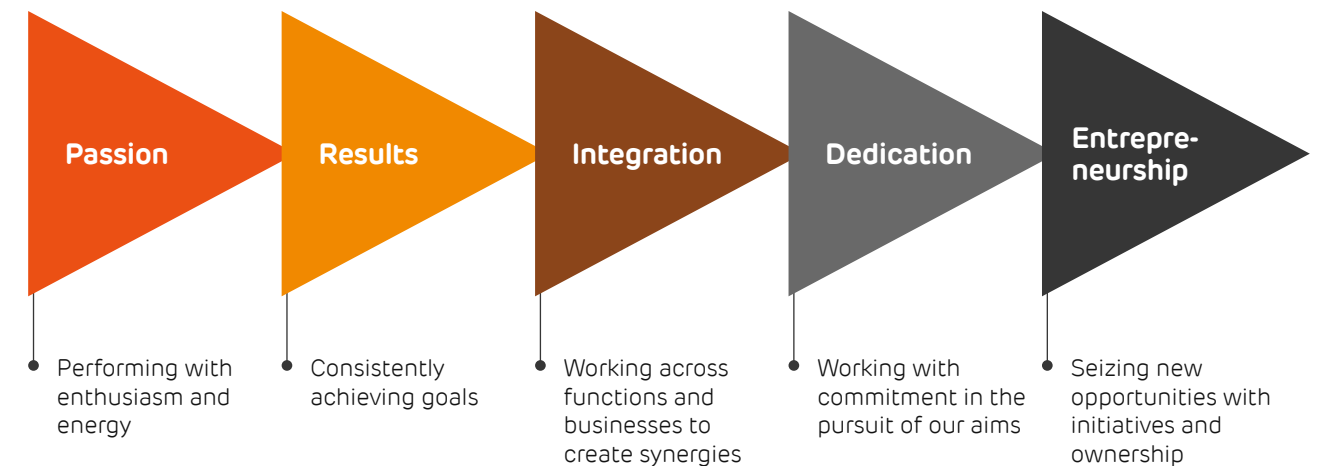

### Commitment

We shall stand by our promises and adhere to high standards of business

## Culture

### The promoter

The Adani portfolio has been promoted by the visionary industrialist Mr. Gautam Adani. The Adani Group was founded by him in 1988 with a commodity trading business under the flagship Adani Enterprises Limited (previously Adani Exports Limited).

### The Adani portfolio

Headquartered in Ahmedabad, India, the Adani portfolio comprises the largest and fastest-growing businesses in India with diverse interests.

### The scale

Most Adani businesses lead their sectors in India. Adani Portfolio comprises of ten publicly traded companies.

Adani Energy Solutions Limited is one of the largest private sector transmission and distribution company in India

Adani Enterprises Limited is India's leading business incubation company

Adani Green Energy Limited is among one of the leading renewable energy businesses in the world

Adani Ports and Special Economic Zone Limited is one of the leading private sector port operators in India

Adani Power Limited is the leading private sector thermal power producer in India

Adani Total Gas Limited is one of the largest city gas distribution businesses in India

Adani Wilmar Limited holds the position of being India's one of the leading edible oil brands

Ambuja Cement (with subsidiary ACC Limited) is the second largest cement manufacturer of India and an iconic cement brand

NDTV Limited is among India's most trusted media companies

### The positioning

The Adani portfolio has positioned itself as a leader in the transport logistics and energy utility portfolio businesses in India. This portfolio of companies has focused on sizable infrastructure development in India with operations and maintenance practices benchmarked with global standards.

### The core philosophy

The Adani portfolio philosophy is 'Growth with Goodness' for sustainable growth. The portfolio is committed to widen its ESG footprint with an emphasis on climate protection and increasing community outreach through Corporate Social Responsibility (CSR) programmes woven around sustainability, diversity and shared values.

### The credibility

Adani portfolio companies comprises of four IG-rated businesses and is the only Infrastructure Investment Grade bond issuer from India.

# Environmental, Social & Governance initiatives

(ESG updates are as of 30 June 2023)

APLs sustainability commitment is embedded in our strategy, our business processes and decision-making. Some of our key ESG goals and ambitions include:

- Board Governance as per world best practices.
- To be in top-5 companies in India for ESG benchmarking of Electric Utility Sector since 2019.
- Explore Net carbon Neutral possibilities and public disclosures by 2023-24.
- Committed to Health and Safety of workforce with Zero Harm and Zero Leak objective by bringing Leadership commitment.
- Uniform deployment of safety standards and procedures, Capacity building, Systems and Processes.
- Contribution towards tree plantation pledge of 100 Mn tree plantation till 2030.
- Seven out of nine power plant locations certified as Single-use-Plastic-Free (SuPF).
- Integrate with Management Systems in the Company to conduct business with no net loss to biodiversity and 100% alignment with India Business Biodiversity Initiative (IBBI) and public disclosures by 2024-25.
- Building green supply chain by integration of Associates for 100% of critical supplies by FY 2024-25.
- Systematic Materiality Assessment and integration with Management Systems in the Company.
- Inclusive growth including communities by undertaking CSR initiatives aligned with business impacts to leave positive footprints and societal happiness.

## Our ESG commitment

Planned initiatives for integrating environmental, social and governance milestones in business operations.

### Our targets

<p><b>0.84</b> tCO<sub>2</sub>e/MWh, Reduction in Greenhouse gases emission intensity by FY 2024-25</p>	<p><b>7.8</b> Mn, Tree plantation by 2030 as a part of Adani Portfolio entities' commitment pledge planting 100 Mn tree by 2030</p>	<p><b>Zero</b> Health and safety related injuries</p>	<p><b>100%</b> Single-use-Plastic-Free (SuPF) Certified Company for operating locations by FY 2023-24</p>

# Part 4

# Our approach to tax

## Introduction

At Adani portfolio, we consider tax as a material topic that plays a significant role in making economic and social contributions (sustainable development goals).

This commitment is aligned with our vision to be a world-class leader in businesses that enrich lives and contribute to nations in building

infrastructure through sustainable value creation.

We believe that companies are under an obligation to comply with prevailing tax legislations; the management owns a responsibility to stakeholders to address expectations of good tax practice.

APL is fully committed to comply with the applicable tax laws of respective countries and paying its fair share of taxes to government(s). The Company's approach to tax balances compliances with business activities and articulates Group strategies and processes.

The fundamentals of our tax approach are outlined:

### Fundamentals

Compiences

Disclosures and Reporting

Tax Strategy

Risk Management and Dispute Resolution

Related Party Transactions and Transfer Pricing

Tax Governance

In-house Tax Team

Tax Processes and Controls

Advocacy

Engaging with Tax Authorities

### Compiences

We endeavour to be fully compliant with applicable tax laws in the geographies of our presence and fulfill statutory obligations in those countries. Which means setting the threshold at Zero-tolerance towards non-compiences or any compliance delays.

In view of this, our vision is to create efficient systems from a tax governance perspective (including compliances). We will continue to

seek the assistance of tax advisors whenever warranted to ensure a complete and timely compliance with applicable regulations.

Our operational framework comprises an annual compliance calendar that tracks/monitors statutory due dates. These compliances are monitored in real-time. A system of checks and balances (preparer-reviewer-approver) ensures that no compliances are deferred or missed.

This system is reviewed periodically and aligned with regulatory changes, ensuring that it remains contemporary. This ensures that the system is adaptive, responsive and relevant. It is our endeavour to set internal timelines for statutory compliances and meet such internal timelines. We endeavour to ensure that there are no lapses in adhering to the statutory timelines and that, we set a benchmark for others in the industry to follow.

All tax returns and tax audit reports were filed within statutory due dates

### Disclosures and reporting

At APL, we focus on transparency and standards related to disclosures/ reporting on how tax matters are managed. This report is a validation of the commitment. As a policy,

we disclose what is required under law and extend beyond, setting a standard in terms of disclosures/ reporting. We view appropriate disclosures and reporting as an opportunity to engage with key

stakeholders. The objective of such disclosures / reporting is to increase transparency and promote credibility leading to stakeholder trust (government, regulators and investors).

### Tax strategy

As a principle, we believe in paying our fair share of taxes without seeking to circumvent, avoiding tax or evasion. We endeavour to operate businesses efficiently and create value for shareholders. In this context, tax optimisation is undertaken with a commercial rationale and substance of the transaction being at the helm.

We track tax laws and concessions, seeking to optimise our tax exposure within available guardrails. Our tax planning is guided by a sense of integrity. The result is that we claim tax incentives/ deductions aligned with our strategy and which relate to investments and economic substance.

The international tax landscape has been rapidly evolving following the inception of base erosion and profit shifting ('BEPS') project of G20/ Organisation of Economic Co-operation and Development. BEPS attempts to ensure that profits are taxed in the country of economic activity and value creation. India has been an extremely active participant in this regard.

All multinational corporations are impacted by changes in international tax framework as they operate across borders in multiple countries. Currently, under BEPS 2.0 - Pillar 1 and Pillar 2 are work-in-progress for implementation. Pillar 1 reallocates certain portion of the residual profits to the market jurisdiction, while Pillar 2 lays down

a global minimum tax rate of 15% in the countries in which such multinational corporations operate. While many jurisdictions are moving forward with the implementation of Pillar 2, consensus on Pillar 1 is uncertain. Be that as it may, Adani Group has proactively evaluated the implications under Pillar 1 and Pillar 2. This provides a greater certainty in terms of the tax impact and also leads to development of a robust tax function.

When APL invests in a location, we seek to build long-term relationships with investors, respective governments, employees and local communities. The taxes we collect on behalf of the government and pay represent an important way in fulfilling this responsibility.

### Risk management and dispute resolution

We do not adopt aggressive tax positions; we are committed to positions with an underlying substance and commercial activities / rationale. Wherever significant positions are taken, we seek advice from external experts / senior counsels. We follow sustainable tax practices

with high governance. We identify tax risks with the perspective that they may be avoided/ mitigated. This approach comprises tax risk analysis and aligns with governance best practises. Our tax governance framework focuses on how tax risks are identified, managed, monitored and mitigated.

We do recognise that there could be differences of opinion with the tax

authorities, potentially leading to disputes. APL focuses on proactively presenting relevant facts before the tax authorities with comprehensive documentation and a transparent dialogue. In respect of tax disputes, the assistance of external tax experts and senior counsels could be sought.

As a measure of corporate predictability, we periodically review

the tax risks to ascertain tax position changes in the context of an evolving tax landscape (law changes, subsequent judicial precedents

etc.). The key positions adopted are appropriately documented alongwith the basis for the same. Material tax matters are reported

to the committee / sub-committee of Board of Directors, as considered appropriate.

### Our tax risk management approach

**Risk assessment:**  
Continuously track changes in tax legislations and policies

**Self-assessment:**  
Invest controls and governance that prevent non-compliance

**Resource management:**  
Seek professional advice wherever the tax law is unclear

**Industry benchmark:**  
Examine approaches by peers related to tax risks management

### Related party transactions and transfer pricing

The Adani portfolio enters related party transactions with portfolio companies in the following manner:

- The Adani portfolio is one of the most dynamic infrastructure and utilities platforms with a significant expertise across the value chain for infrastructure development. Its operation and maintenance practices are benchmarked to global standards. It assists portfolio companies to execute projects efficiently with in-house resources.
- When financial support is provided by the parent company to subsidiaries, the transfer price is determined considering factors like commercial expediency, envisaged cash flows, profitability, etc.
- Since Adani Group companies are built around adjacencies within businesses inter-se, there are

synergies and business exigencies for inter-company flow of goods and services, leading to related party transactions.

APL adopted a related party transaction policy, framed around the provisions of the Companies Act, 2013, Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015 and Income-tax Act, 1961. The policy regulates related party transactions to ensure proper transaction approval, disclosure and reporting.

Based on this policy, the companies identify related party transactions and obtain approvals (e.g. Audit Committee) for these transactions. The Board of Directors reviews related party transactions and supporting documentation is provided to the Board of Directors to substantiate such transactions on an arm's length principle and in the ordinary course of business.

The Adani portfolio's transfer pricing framework covers transfer pricing filings with the tax authorities. Such filings include country-by-country reporting and the master file. These filings transparently report the key business aspects (e.g. number of employees in a country, third party revenues, intra-group revenues) to the tax authorities. The transfer pricing documentation as specified under the income tax laws is maintained for related party transactions and such transactions are also undertaken on an arm's length basis, as required under income tax laws. To determine the arm's length price, a FAR (functions performed, assets employed and risks assumed) Analysis and benchmarking exercise is undertaken internally or externally (as considered appropriate). This framework is directed to a standardised uniform practice across Adani Portfolio entities.

All transfer pricing tax filings are completed within statutory due dates

### Tax governance

Our endeavour is to practice best in-class tax governance. Our tax function is managed ethically and professionally by our proprietary tax team comprising dedicated professionals led by subject matter experts and supported by external tax specialists (whenever needed). This tax team has formulated standard operating procedures, replicating international best

practices with the objective to follow uniform and standardised procedures. The highest body for decision-making/ overseeing tax aspects is the Board of Directors.

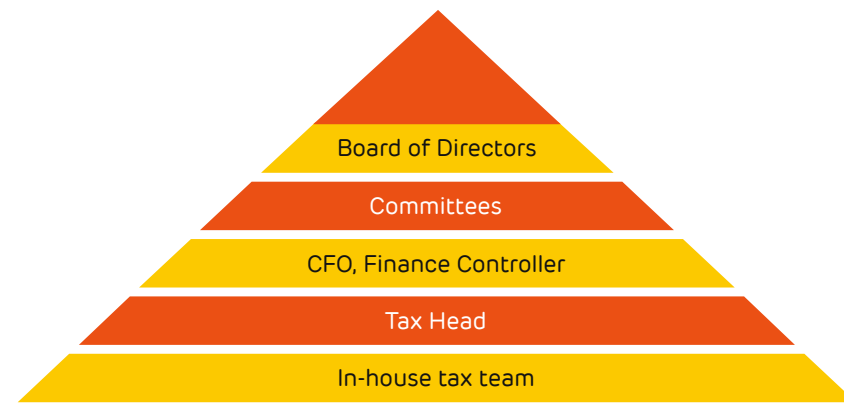

APL's macro-level tax governance structure comprises:

- Board of Directors
- Audit Committee, Risk Management Committee, Mergers

& Acquisitions Committee, Legal, Regulatory and Tax Committee

- Group Chief Financial Officer/ Group Financial and Management Controller
- Chief Financial Officer/ Financial Controller
- In-house tax team (dedicated tax professionals)

The periodic meetings of the Board of Directors review strategic tax matters. In the event of mergers and acquisitions, a due diligence exercise covers risk mitigation and certainty perspectives.

### Legal, Regulatory & Tax Committee

- Exercise oversight with respect to the structure, operation and efficacy of the Company's compliance program.
- Review tax matters that may have a material impact on APL's financial statements and

disclosures, reputational risk or business continuity risk.

- Review compliance with applicable laws and regulations.
- Review significant inquiries received from, and reviews by, regulators or government agencies, including issues

pertaining to compliance with various laws.

- Consider and action tax risk management issues that are brought to the attention of the Committee.

### In-house tax team

The Adani Group has a top-notch dedicated tax team comprising senior tax professionals. This in-house team focuses on all facets of tax and reports to the Chief Financial Officer/ Financial Controller on key aspects. APL has its own finance and tax team, and this is supported by Adani Group's corporate tax team (both referred to as in-house tax team). The in-house tax team collaborates with businesses to provide sound tax advice regarding implications of business decisions/ agreements/ transactions. On

account of interpretation issues with respect to tax laws, there could be an uncertainty or complexity regarding tax implications. In such a scenario, assistance is sought from external professional advisors and senior counsels (as required). A similar practice is also adopted for significant mergers and acquisitions undertaken.

APL's robust framework addresses dynamic tax laws by focusing on training and updates of latest tax developments (judicial pronouncements). Regular tax updates from multiple sources and

key updates are disseminated to the relevant stakeholders internally (e.g., businesses), facilitating informed decision making. The in-house tax team also participates in topical training (external seminars cum conferences as well as internal discussions).

The in-house tax team is responsible for the implementation of tax functions and principles by identifying, evaluating and advising on tax laws. This in-house tax team also focuses on building effective tax processes and bringing a uniformity in tax compliances.

### Our tax risk management approach

Headed by professional with 25+ years of experience

90+ dedicated tax professionals

Average 9 years of experience

### Tax processes and controls

APL's robust processes and controls address tax obligations, whether related to the payment of taxes or undertaking tax compliances. These

processes comprise tracking and monitoring pending tax litigation and necessary compliances required to be legally undertaken. It also includes real-time status monitoring. Standard operating procedures are

built for tax processes, with the objective to follow uniform and standardised procedures. From a control's perspective, the concept of checks and balances are in place (maker-reviewer-approver).

### Comprehensive Tax Compliance Calendar

APL increasingly leverages technology tools to supplement the human interface, helping automate tax processes. Extensive technology changes drive efficiencies related

### Maker-Reviewer-Approver Approach

to tax aspects. A repository for the archival of historical and current tax data / documents has helped build a safeguard against subsequent data non-availability.

### Standard Operating Procedures

An internal audit covers tax, covering the effectiveness, efficiency and adequacy of internal control systems and adherence to various frameworks, policies and procedures.

### Standard Operating Procedures

### Direct Tax

### Mergers & Acquisitions

### Goods & Service Tax

Illustrations of leveraging on tax technology:

Online income tax notice tracking

Automation in direct tax like withholding tax compliances, returns, etc.

Automation of lower withholding rate in SAP for vendors

Automated GST ITC Reconciliation process

### Advocacy

APL has developed an advocacy framework leading to a constructive and transparent dialogue with governments and policymakers across all tax facets (policy, legislation and administration). These advocacy initiatives are

engaged either directly by APL or through relevant industry bodies with the objective of appropriate representation before the Government and policymakers on key tax issues/ concerns that impact business or lead to unintended consequences.

APL identifies issues impacting businesses on account of the changing landscape; it considers advocacy as an opportunity to present not only its concerns, but also partner with / represent the larger industry and engage with policymakers on key growth drivers for the country/ industry.

### Engaging with tax authorities

Our engagement with the tax authorities is transparent and co-operative. Our endeavour is to disclose relevant and complete facts to the tax authorities for their assessment. Our representations

to the tax authorities are typically undertaken by the external professional advisors engaged by APL, supported by our proprietary tax team in line with our standard approach for representing / communicating with the tax

authorities. APL obtains withholding tax orders/ other certificates from the tax authorities in advance, from a risk mitigation and certainty perspective.

Part 5

# The numbers

What we have paid and under what heads

# Our contribution to the exchequer: Tax and other contributions

In the earlier section of this report, we outlined our approach to tax to share the organisation's perspective towards tax.

We also presented a summary of Tax and Other Contributions made to the Indian Government during the financial year 2022-23.

These Tax and Other Contributions have been logged under the following categories:

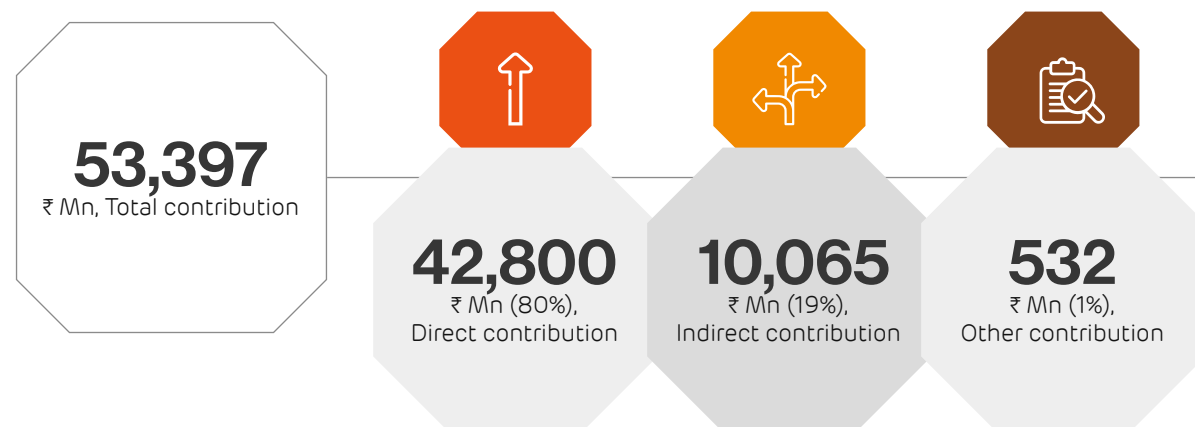

**Direct contributions** include payments made by APL and its subsidiaries directly to the Indian Government; these comprise corporate tax, indirect taxes borne, government royalty and other charges.

**Indirect contributions** include payments by APL and subsidiaries on behalf of other stakeholders, such as withholding tax on vendor payments, withholding tax on payroll, Goods and Services Tax (GST) on outward supply & services, Value Added Tax (VAT) etc.

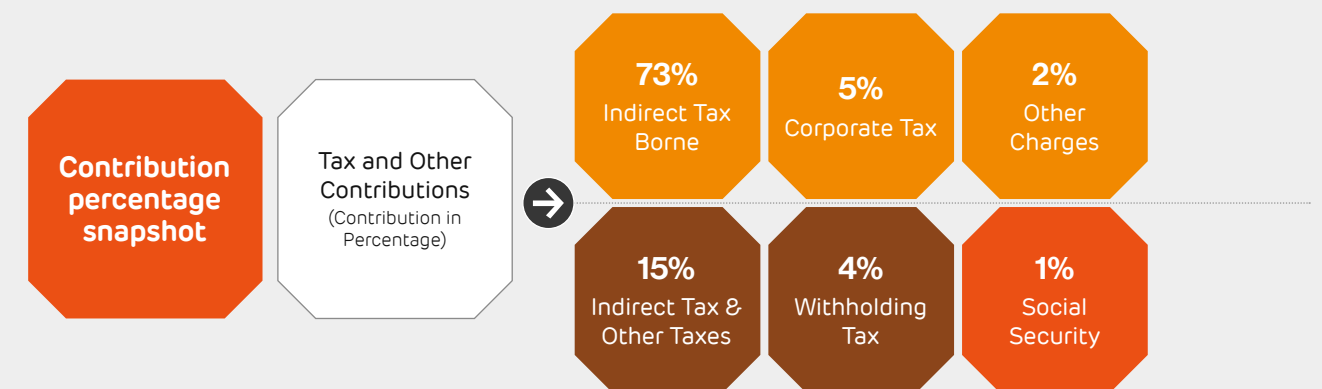

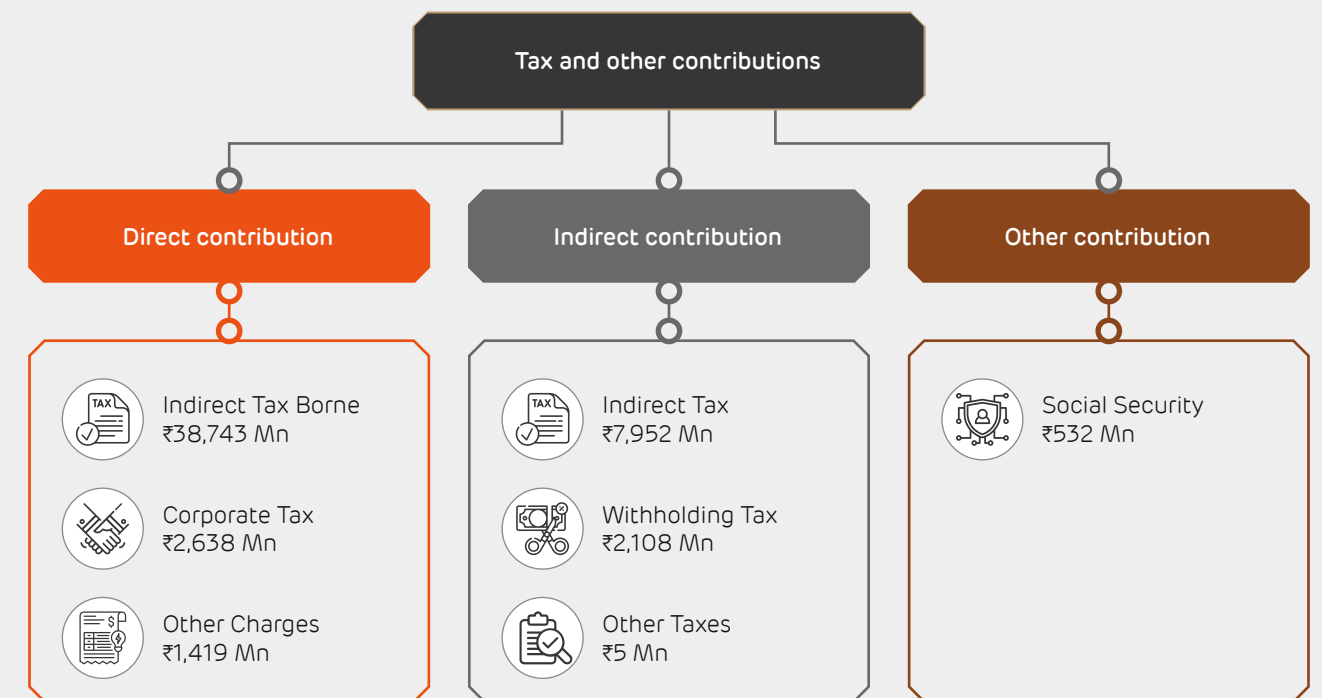

**Other contributions** comprise non-tax payments by APL and its subsidiaries such as Provident Fund, Employee State Insurance and Labour Welfare Fund.

## The basis of preparation

This basis of preparation section provides the scope and methodology for the collection and reporting of data on the Tax & Other Contributions made directly and indirectly to the Indian Government. Such data is reported in the section "Contribution to Exchequer - Tax & Other Contributions".

The data reported is for the year from 1 April 2022 to 31 March 2023 and is based on the data used in the preparation of the Annual Report for the year ended 31 March 2023. We have reported the Tax and Other Contributions on a cash basis, unless otherwise mentioned. The base information used to compute

the Tax and Other Contributions is the same as that for the audited financial statements of respective companies with inherent differences in the accounting methodology.

We have categorised the Tax and Other Contributions into following parts:

**Direct contributions:** It represents taxes, duties and other charges borne by APL and its subsidiaries.

**Indirect contributions:** It represents taxes and duties collected and paid on behalf of other stakeholders by APL and its subsidiaries.

**Other contributions:** It represents social security contributed for the benefit of the employees.

We have reported the Tax and Other Contributions to the Indian Government, Ministries, Local Authorities, etc. by APL and its subsidiaries. In this context, the Tax and Other Contributions made by companies incorporated in India have only been considered for the purposes of this report. Such contributions are reported at gross amounts. Further, Tax and Other Contributions paid to the Government(s) outside India are not forming part of this report.

In addition to the above Tax and Other Contributions to the Indian Government, we have also incurred social expenditures in the form of Corporate Social Responsibility (CSR) related contributions, which are not considered under this report as such amount are not paid to the Indian government.

The grouping of Tax and Other Contributions under the heads of 'Direct Contribution', 'Indirect Contribution' and 'Other Contribution' are based on our understanding of the nature of the payment and its payment mechanism.

### 1. Direct Contribution

**a. Corporate Tax on Income:** This represents the actual taxes paid directly on the taxable profits of APL and its subsidiaries during the financial year 2022-23, including the taxes withheld by third parties while making payment to APL and to its subsidiaries i.e., taxes withheld by the customers or taxes collected by the third party vendors.

Since these taxes are reported on a cash basis, it may also include the tax paid in respect of the income tax liability for earlier years at respective corporate tax rates applicable for those years, if those were paid during the financial year 2022-23. Typically, these taxes would be reflected in corporate income tax returns made to governments, and tend to become payable, and are paid, either directly by way of advance tax or self-assessment tax or through credit of withholding tax, either in the year the profits were made or up to one year later.

**b. Indirect Tax Borne:** This includes goods and services tax borne, customs duty borne, coal purchase related tax / cess / charges borne, etc.

**c. Other Charges:** This includes stamp duty, environmental contributions, license fee, property tax and any other similar contribution by APL and its subsidiaries.

### 2. Indirect Contribution

#### a. Withholding Tax:

i. Payroll Taxes: These represent taxes withheld from the salary payments made to the employees and deposited by APL and its subsidiaries to the Indian Government. Typically, these taxes would be reflected in payroll tax returns made to the exchequer and tend to be payable, and are paid, on a periodic basis throughout the year.

ii. Suppliers and Vendors: These represent taxes withheld by APL and its subsidiaries on various payments made to the suppliers and vendors and deposited with the Indian Government on behalf of such service provider.

**b. Indirect Tax:** This includes GST collected and paid to the Indian Government on gross basis.

**c. Other Taxes:** This includes professional tax withheld and deposited with the Indian Government.

Refunds received, if any, have not been reduced for the purpose of Tax and Other Contributions. Separately, interest on tax is included in the Tax and Other Contributions, while penalty paid (if any) is not included. The withholding tax deducted on payments to group entities have been reported under indirect contributions and the corresponding payees have reported the same under direct contributions as tax on its income.

### 3. Other Contribution

**a. Social Security:** Social security contributions are obligatory payments to the Indian Government that entitle employees to receive a future social benefit such as Provident Fund, Employee State Insurance, which are solely for the benefit of employees.

The amounts reported as Tax and Other Contributions are based on the periodic forms, returns, challans and other relevant documents filed with the Indian Government authorities.

An effort has been made to report various types of taxes, duties, levies and contributions. Any omission, inclusion or exclusion, other than that specifically mentioned, is unintentional and not expected to have any material impact on the disclosures.

#### Currency

Tax and Other Contributions disclosed in this report are in Indian National Rupees (₹) and are rounded-off to the nearest Million (Mn).

#### Coverage

Please refer page 43 for list of taxes and other contributions covered.

# Independent reasonable assurance report

### Report on the audit of the Tax and Other Contributions included in the Tax Transparency Report of Adani Power Limited for the Financial Year 2022-23

We ('BDO India LLP' or 'BDO') were engaged by the management of Adani Power Limited ('the Company') to report on 'Tax and Other Contributions' contained in the Tax Transparency Report of the Company and its subsidiaries for the financial year 2022-23, in the form of an independent reasonable assurance conclusion about whether Adani Power Limited's statement that the Tax and Other Contributions is properly prepared, in all material respects, based on 'Basis of Preparation' attached to the Tax Transparency Report is fairly stated.

### Management's Responsibility

The management of the Company is responsible for the preparation and presentation of the Tax and Other Contributions for the financial year 2022-23 in accordance with the 'Basis of Preparation' and for designing, implementing and maintaining such internal control as the management determines

is necessary to enable the preparation and presentation of the Tax and Other Contributions for the financial year 2022-23 that is free from material misstatement, whether due to fraud or error. The management of the Company is also responsible for preparing the Basis of Preparation.

In preparing the Tax and Other Contributions for the financial year 2022-23, the management of the Company is also responsible for ensuring the efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, implementing and maintaining internal control, preventing and detecting frauds and errors, ensuring the accuracy and completeness of the accounting records and identifying and ensuring that it complies with the laws and regulations applicable to its activities.

Those charged with governance are responsible for overseeing the Company's and its subsidiaries' financial reporting process.

### Independent Auditor's Responsibility

Our responsibility is to examine the Tax and Other Contributions prepared by the Company and to report thereon in the form of an independent reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000:

Assurance Engagements Other than Audits or Reviews of Historical Financial Information issued by the International Auditing and Assurance Standards Board, which requires that we plan and perform our procedures to obtain reasonable assurance about whether the Tax and Other Contributions for the financial year 2022-23 is properly prepared and free from material misstatement, whether due to fraud or error.

Reasonable assurance is less than absolute assurance and is not a guarantee that an audit conducted will always detect a material misstatement when it exists.

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on the fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of Tax and Other Contributions whether due to fraud or error. In making those risk assessments, we have considered internal control relevant to the preparation and presentation of Tax and Other Contributions in order to design assurance procedures that are appropriate in

the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of the Company's internal control over the preparation and presentation of Tax and Other Contributions. Our engagement also included assessing the appropriateness of Tax and Other Contributions, the suitability of the Basis of Preparation used by the Company in preparing the Tax and Other Contributions in the circumstances of the engagement, evaluating the appropriateness of the procedures used in the preparation of Tax and Other Contributions and the reasonableness of estimates made by the Company and evaluating the overall presentation of the Tax and Other Contributions.

#### Our opinion

In our opinion, the Tax and Other Contributions for the financial year 2022-23 is properly prepared, in all material respects, in accordance with the 'Basis of Preparation'. Our opinion has been formed on the basis of, and is subject to, the matters outlined in this report.

This report is not issued under any statute/ law.

#### Restriction on Use

In accordance with the terms of our engagement, this independent reasonable assurance report on Tax and Other Contributions has been prepared and issued at the request of APL solely for inclusion in its Tax Transparency Report for the

financial year 2022- 23 and should not be used by any other person or for no other purpose or in any other context. We are appointed to only verify the Tax and Other Contributions in accordance with the Basis of Preparation shared with us and are not the auditors of APL and BDO India LLP shall not be liable to the Company or to any other party for any claims, liabilities or expenses relating to this report. Any party other than APL who obtains access to our report or a copy thereof and chooses to rely on our report (or any part thereof) will do so at its own risk. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or, into whose hands it may come without our prior consent in writing.

Our report is released to APL on the basis that it shall not be copied, referred to or disclosed, in whole (save for inclusion in APL's Tax Transparency Report) or in part, without our prior written consent.
